

Duke Energy Smart Saver® in North and South Carolina Incentive Application Form and Instructions.

All applications must be submitted within 90 days from installation to be eligible. Incomplete application forms or forms that cannot be read clearly will not be processed and will be returned for correction.

Please review before submitting an application:

1. Customer must be a North or South Carolina Duke Energy customer and live in a single family home. (Condominiums, town homes, manufactured homes, duplexes and mobile homes)
2. Complete all parts of the application that are applicable. Note the following required information:
 - a. Customer information including name and service address as shown on Duke Energy bill.
 - b. HVAC model numbers. If more than one system serves a home, use separate forms and note the number of applications on the line provided.
 - c. Air Conditioning, Heating, and Refrigeration Institute (AHRI) certification number.
 - d. HVAC dealer or builder signature verifying all information on the application is accurate.
3. If available, include the Duke Energy customer account number to expedite incentive payments.
4. If the Duke Energy customer rents the home where the new HVAC system is installed, the customer rebate can be paid to the owner of the home. If this rental situation applies, please check this box on the application form and attach the owner's name, address and other payment information on a separate piece of paper.
5. Attach the required AHRI certification indicating the SEER efficiency level of the installed heat pump or air conditioner. See www.ahridirectory.org.
6. HVAC dealer, dealer sales representative or builder must fill out the Participating Heating Dealer and Builder Sign-up Form prior to or in conjunction with their first incentive application. This form also includes a W-9 form and signature.
7. This application form is for the Smart Saver® rebate only and will not establish a new home on Duke Energy Carolina's ENERGY STAR® electric rate. If this is a new home that has been ENERGY STAR-certified and you would like to apply for the special ENERGY STAR rate, call 1-800-777-9898.
8. If the home is an existing home and the old HVAC system was natural gas or the home is a new home where natural gas is available, to be eligible for incentives, a new heat pump must be installed as part of a dual fuel system that uses natural gas as the supplemental heat source.
9. Homes in Greenwood, SC area that are still on the frozen Greenwood, SC rates are not eligible for Smart Saver rebates. See more details via the website noted below on the program FAQ webpage.
10. Submit incentive applications and attachments via:

Email to Incentives@DukeResSmartSaver.com, or fax toll free to: 1-866-728-8293

Or Mail to: Smart Saver Incentives
P.O. Box 535
Snellville, GA 30078

Please allow three to four weeks for incentive checks to be mailed.
